

MEDICAL FEE SCHEDULE
MAINE WORKERS' COMPENSATION BOARD
CHAPTER 5
BOARD RULES AND REGULATIONS
WITH APPENDICES I, II AND III

MAINE WORKERS' COMPENSATION BOARD
OFFICE OF MEDICAL/REHABILITATION SERVICES
27 STATE HOUSE STATION
AUGUSTA, MAINE 04333-0027
(207) 287-7080
Effective
July 1, 2002

MAINE WORKERS' COMPENSATION BOARD

MEDICAL FEE SCHEDULE

The Maine Workers' Compensation Board Medical Fee Schedule incorporates portions of the following documents:

1. The Physician's Current Procedural Terminology, Fourth Edition, copyright 2001 (a.k.a. CPT 2002) by the American Medical Association.
2. Medicare RBRVS REPORT: The Physician's Guide 2002, copyright 2001, by the American Medical Association.

Some of the most important revisions that have been incorporated within this Fee Schedule are as follows:

1. Appropriate text changes inclusive of any changes to Unit Values and/or Maximum Allowances.
2. Section 6 (6) and Section 16 (1) include Acupuncturist and Chiropractic Acupuncturist as Health Care Providers/Practitioners.

Chapter 5: MEDICAL FEES; REIMBURSEMENT LEVELS; REPORTING REQUIREMENTS

SUMMARY: This Chapter outlines billing procedures and reimbursement levels for health care providers who treat injured employees. It also describes the dispute resolution process when there is a dispute regarding reimbursement and/or appropriateness of care. Finally, this Chapter sets standards for health care reporting.

§ 1. DATE OF INJURY

This Chapter is promulgated pursuant to 39-A M.R.S.A. §§208 and 209. It shall apply to all bills for medical services provided on or after the effective date of this rule, regardless of the employee's date of injury.

§ 2. PAYMENT UNDER PILOT PROJECTS

Payment of medical costs for a work-related injury made pursuant to a comprehensive health insurance policy created pursuant to 39-A M.R.S.A. §403(2) shall be considered a payment under a decision pursuant to a petition for purposes of 39-A M.R.S.A. §306.

§ 3. PAYMENT TO HOSPITALS

Hospital out-patient charges only are subject to this fee schedule to the extent that those services can be identified by CPT code.

Hospital reimbursement for services provided to an injured worker who is an inpatient at a hospital shall be discounted at 5% based on payment received within 30 days of the original billing date. Full hospital rates will apply when payment is not made within the 30-day period. Services will be identified by the appropriate revenue codes on HCFA 1450 (UB 92) Uniform Billing claim form.

The Workers' Compensation medical fee schedule for surgical procedures was intended to cover the professional component of those services only. It is not intended to cover the facility charges for those same services. Surgical CPT codes are those codes within the range 10000-69999. Facility fees, not subject to the fee schedule for those surgical codes, may be billed under the following revenue codes: 360, 361, 369, 450, 481, 490, and 761.

Reimbursement for services provided to an injured worker who is an outpatient at a surgical center shall be discounted at 5% based on payments received within 30 days of the original billing date. Full rates will apply when payment is not made within the 30 day period.

§ 4. PROCEDURE CODES

1. For purposes of this chapter, health care services shall be described in accordance with current procedural terminology codes (CPT codes) and descriptions listed in the 2002 edition of the Physicians' Current Procedural Terminology published by the American Medical Association, P.O. Box 10946, Chicago, Illinois.
2. The five-digit numeric codes and descriptions included in the Maine Workers' Compensation Medical Fee Schedule are obtained from the Physicians' Current Procedural Terminology, Copyright 2001 by the American Medical Association (CPT). CPT is a listing of descriptive terms and numeric identifying codes and modifiers for reporting medical services and procedures performed by physicians.
3. This publication includes only CPT numeric identifying codes and modifiers for reporting medical services and procedures that were selected by the Maine Workers' Compensation Board. Any use of CPT outside the fee schedule should refer to the Physicians' Current Procedural Terminology, Copyright 2001 American Medical Association and any update thereto. These CPT publications contain the complete and most current listings of CPT descriptive terms and numeric identifying codes and modifiers for reporting medical services and procedures.
4. No fee schedules, basic unit values, relative value guides, conversion factors or scales are included in any part of the Physicians' Current Procedural Terminology, Copyright 2001, by the American Medical Association. All rights reserved.
5. Any standards that are found in the right hand column of the Appendix were developed by the Maine Workers' Compensation Board, Office of Medical/Rehabilitation Services.

§ 5. REVISIONS

1. The Board shall revise the medical fee schedule annually. Until revisions are adopted, the current medical fee schedule remains in force. The Board may revise the schedule at any time, pursuant to 5 M.R.S.A. §§8001 et seq., to:
 - A. Improve the schedule's accuracy;
 - B. Simplify the use and administration of the schedule;
 - C. Encourage providers to develop and deliver services; or
 - D. To accommodate improvement or correct deficiencies of data base.
2. Any person concerned with a particular rate established pursuant to these rules may suggest an amendment to the rules. Those suggestions will be considered in the annual revision process.

§ 6. DEFINITIONS

1. "Bill": request by a health care provider that is submitted to an employer/insurer for payment of services provided in relationship to a compensable injury or illness.
2. "Board": the Maine Workers' Compensation Board pursuant to 39-A M.R.S.A. §151.

3. "By Report" (BR): when a procedure has not been assigned a maximum allowable payment amount, designated by an "*", it shall be justified by a written report.
4. "CPT code" means a numeric code, included in the *Current Procedureal Terminology* coding system manual, used to identify a specific medical service, article or supply. The CPT manual is published by and may be purchased from the American Medical Association, Order Department: OP054194HA, P.O. Box 10950, Chicago, Illinois 60610.
5. "Follow-up Days" (FUD): the maximum number of days of care following a surgical procedure that are included in the procedures maximum allowable payment but does not include care for complications, exacerbations, recurrence, or other diseases or injuries.
6. "Health Care Provider/Practitioner": a person who is licensed, registered, or certified by the State of Maine as any of the following:
 - A. Acupuncturist
 - B. Audiologist
 - C. Doctor of Chiropractic
 - D. Doctor of Dental Surgery
 - E. Doctor of Medicine
 - F. Doctor of Osteopathy
 - G. Doctor of Podiatry
 - H. Registered Nurse
 - I. Certified Registered Nurse Anesthetist
 - J. Nurse Practitioner
 - K. Occupational Therapist
 - L. Optometrist
 - M. Orthotist
 - N. Physical Therapist
 - O. Physician's Assistant
 - P. Psychologist
 - Q. Chiropractic Acupuncturist.
7. "Hospital": any acute care institution required to be licensed pursuant to 22 M.R.S.A. §382.
8. "Incidental Surgery": a surgery which is performed on the same patient, on the same day, by the same doctor but is not related to the diagnosis.
9. "Maximum Allowable Payment" (MAP): the maximum fee for a procedure listed in appendix III which has been established by the Maine Workers' Compensation Board or the provider's usual and customary charge, whichever is less.

10. "Modifier" means a two-digit number that is added to a procedure code to indicate that the service rendered differs in some material respect from the service described in this rule or in the CPT manual in effect on the date the service was rendered.

§ 7. REIMBURSEMENT

1. An employer is not liable under the Workers' Compensation Act for charges for health care services to an injured employee in excess of amounts listed in Appendix III of this chapter.
2. The employer/insurer shall pay the health care provider's charge or the maximum allowable payment under this fee schedule, whichever is less, within 30 days of receipt of a bill unless the bill or previous bills from the same provider or the underlying injury has been controverted or denied.
3. Payment of a medical bill is not an admission by the employer or insurer as to the reasonableness of subsequent medical bills.

§ 8. MEDICAL EXAMINATIONS

Medical examinations not for purposes of treatment are not subject to this fee schedule.

§ 9. BILLING PROCEDURES

1. Bills submitted by employees, their representatives or health care providers to insurers or employers for reimbursement of medical services must specify the date and type of service, the appropriate procedure code, the condition treated, and the charges for each service.

Bills properly submitted on forms mandated by the Bureau of Insurance pursuant to 24-A M.R.S.A. §2753, shall be sufficient to comply with this requirement. Uncoded bills may be returned for coding.

2. The amount billed for a procedure, for which the medical fee schedule does not provide a maximum allowable payment amount, as indicated by an "*", shall be justified by a written report. The health care provider may not charge a fee for this report.
3. The insurer shall undertake reasonable investigations to ascertain whether a service is subject to the maximum allowable payment. A service is subject to the maximum allowable payment if it conforms to a description contained in the medical fee schedule. When there is a dispute regarding medical bills and the provision of medical services, the employer shall pay the undisputed amount, if any.

The insurer shall send written notice to the health care provider from whom the bill originated that the requested fee has been adjusted and the explanation for such adjustment. Notice is not required when bills are reduced to the fee schedule maximum allowable payment.

The employer's notification to the health care provider shall be made at the time the employer pays the fee to which it believes the health care provider is entitled.

4. If the health care provider disputes any payment received or denied, the health care provider, employee or other interested party shall be entitled to file Form 190 or 190(A), Petition to Fix the Amount to be Allowed.

Any health care provider, employee, or other interested party shall be entitled to file Form 190 or Form 190(A) for determination of any issue regarding medical services and/or medical billing.

Forms 190 and 190 (A) may be obtained by contacting the Workers' Compensation Board, Office of Medical/Rehabilitation Services, 27 State House Station, Augusta, Maine 04333-0027, Tel: 207-287-7080.

5. The injured employee is not liable for payment of any health care services for the treatment of a work-related injury or disease. Except as provided by 39-A M.R.S.A. §206(2)(B), the health care provider may charge the patient directly only for the treatment of conditions that are unrelated to the compensable injury or disease. See 39-A M.R.S.A. §206(13).

NOTE [Providers may use the most current AMA CPT codes when billing workers' compensation claims. If the codes utilized are not included in the current Medical Fee Schedule, the item will be considered a starred procedure, one which is not assigned a maximum allowable payment, and must be justified by report.]

§10. MODIFIERS

1. A modifier code shall be used to describe any unusual circumstances or services that arise in the treatment of a work related injury or illness.

2. The modifier codes recognized by these are as follows:

-21 Prolonged Evaluation and Management Services: When the service(s) provided is prolonged or greater than usually required for the highest level of evaluation in management service within a category, modifier -21 may be added to the evaluation and management code number or by the use of the separate five digit modifier code 09921. A report must be submitted when using this modifier.

-22 Unusual Services: When the service(s) provided is greater than that usually required for the listed procedure, it shall be identified by adding modifier -22 to the usual procedure code or by the use of the separate five digit modifier code 09922. A report must be submitted when using this modifier.

-23 Unusual Anesthesia: Occasionally, a procedure, which usually requires no anesthesia or local anesthesia due to the unusual circumstances must be done under general

anesthesia. The procedure shall be reported by adding modifier -23 to the procedure code or by the use of the separate five digit modifier code 09923. A report must be submitted when using this modifier.

-24 Unrelated Evaluation and Management Services by the Same Physician During a Post Operative Period: The health care provider may need to indicate that an evaluation and management service was performed during a post operative period for a reason(s) unrelated to the original procedure. This procedure shall be reported by adding modifier -24 or by the use of the separate five digit modifier code 09924. A report must be submitted when using this modifier.

-25 Significant, Separately Identifiable Evaluation and Management Service by the Same Health Care Provider on the Day of a Procedure: The health care provider may need to indicate on the day a procedure or service was performed, that the patient's condition required a separate identifiable evaluation and management service above and beyond usual and customary pre-operative and post-operative care. This procedure shall be reported by adding modifier -25 to the appropriate evaluation and management service 24 or by the use of the separate five digit modifier code 09925. A report must be submitted when using this modifier. **NOTE:** This modifier is not used to report an E/M service that resulted in a decision to perform surgery. See modifier -57.

-26 Professional Component: Certain procedures are combinations of a professional component and a technical component. When the professional component is reported separately, the service shall be identified by adding the modifier -26 to the usual procedure code 24 or by the use of the separate five digit modifier code 09926.

-32 Mandated Services: Services related to mandated consultation, related services and/or medical examinations not for the purpose of treatment, shall be identified by adding the modifier -32 to the basic procedure 24 or by the use of the separate five digit modifier code 09932. A report must be submitted when this modifier is used.

-47 Anesthesia by Surgeon: Regional or general anesthesia provided by the surgeon may be reported by adding the modifier -47 to the basic procedure or by the use of the separate five digit modifier code 09947. (This does not include local anesthesia.) **NOTE:** Modifier -47 or 09947 would not be used as a modifier for the anesthesia procedures 00100-01999.

-50 Bilateral Procedure: Unless otherwise identified in the listings, bilateral procedures that are performed at the same operative session, requiring a separate incision, shall be identified by the appropriate CPT code for the first procedure. The second procedure shall be identified by adding modifier -50 to the procedure code or by the use of the separate five digit modifier code 09950.

-51 Multiple Procedures: When multiple procedures are performed on the same day, the major procedure or service shall be reported as listed. The secondary, additional or lesser procedures, or service(s) may be identified by adding the modifier -51 to the secondary

surgical procedure or code or by the use of the separate five digit modifier code 09951. Modifier -51 shall be used to report multiple medical procedures performed by the same health care provider at the same session as well as a combination of medical and surgical procedures.

-52 Reduced Services: Under certain circumstances, a service or procedure is partially reduced or eliminated at the health care provider's election. Under these circumstances, the service provided shall be identified by the usual procedure code and the modifier -52 or by the use of the separate five digit modifier code 09952. **NOTE:** For hospital outpatient reporting of a previously scheduled procedure/service that is partially reduced or cancelled as a result of extenuating circumstances or those that threaten the well-being of the patient prior to or after administration of anesthesia, see modifiers -73 and -74.

-53 Discontinued Procedure: Under certain circumstances, the physician may elect to terminate a surgical or diagnostic procedure. Due to extenuating circumstances or those that threaten the well being of the patient, it may be necessary to indicate that a surgical or diagnostic procedure was started but discontinued. This circumstance may be reported by adding the modifier -53 to the code **reported by the physician** for the discontinued procedure or by use of the separate five digit modifier code 09953. **NOTE:** This modifier is not used to report the elective cancellation of a procedure prior to the patient's anesthesia induction and/or surgical preparation in the operating suite.

-54 Surgical Care Only: When a surgeon performs a surgical procedure and another practitioner provides the pre-operative and post-operative management or both, the surgical procedure or services shall be identified by using the usual procedure code and the modifier -54 or by the use of the separate five digit modifier code 09954.

-55 Post-Operative Management Only: When one practitioner performs the post-operative management and another surgeon has performed the surgical procedure, the post-operative component shall be identified by using the usual procedure number and the modifier -55 or by the use of the separate five digit modifier code 09955.

-56 Pre-Operative Management Only: When one practitioner performs the pre-operative care and a surgeon performs the surgical procedure, the pre-operative component shall be identified by using the usual procedure code and the modifier -56 or by the use of the separate five digit modifier code 09956.

-57 Decision for Surgery: An evaluation and management service that resulted in the initial decision to perform the surgery may be identified by adding the modifier -57 to the appropriate level of E/M service, or the separate five digit modifier 09957 may be used.

-58 Staged or Related Procedure or Service by the same physician During the Postoperative Period. The physician may need to indicate that the performance of a procedure or service during the postoperative period was: a) planned prospectively at the time of the original procedure (staged); b) more extensive than the original procedure; or c) for therapy following a diagnostic surgical procedure. This circumstance may be reported by adding the modifier -58 to the staged or related procedure, or the separate five

digit modifier 09958 may be used. **NOTE:** This modifier is not used to report the treatment of a problem that requires a return to the operating room.

-59 Distinct Procedural Service. Under certain circumstances, the physician may need to indicate that a procedure or service was distinct or independent from other services performed on the same day. Modifier -59 is used to identify procedures/services that are not normally reported together, but are appropriate under the circumstances. This may represent a different session or patient encounter, different procedure or surgery, different site or organ system, separate incision/excision, separate lesion, or separate injury (or area of injury in extensive injuries) not ordinarily encountered or performed on the same day by the same physician. However, when another already established modifier is appropriate it should be used rather than modifier -59. Only if no more descriptive modifier is available, and the use of modifier -59 best explains the circumstances, should modifier -59 be used. Modifier code 09959 may be used as an alternative to modifier -59.

-62 Two Surgeons: Under certain circumstances, the skills of two surgeons, usually with different specialties, may be required to complete a surgical procedure. The health care services shall be identified by the procedure code and the modifier -62 or by the use of the separate five digit modifier code 09962. **NOTE:** If a co-surgeon acts as an assistant in the performance of additional procedure(s) during the same surgical session, those services may be reported using procedure code(s) with the modifier -80 or modifier -81 added, as appropriate.

-66 Surgical Team: Some complex procedures require concomitant services of several health care providers, often from different specialties. Such complex services may also involve other highly skilled and specially trained personnel, as well as various types of sophisticated equipment. This type of complicated procedure may be carried out under the "surgical team" concept. Such circumstances shall be identified by each participating health care provider with a basic procedure code and the modifier -66 or by the use of the separate five digit modifier code 09966.

-76 Repeat Procedure by same Practitioner: When the health care provider needs to indicate that a procedure or service was repeated subsequent to the original service, they shall report this by the procedure code and modifier -76 or by the use of the separate five digit modifier code 09976.

-77 Repeat Procedure by another Practitioner: When the health care provider indicates that a basic procedure performed by another practitioner had to be repeated, that procedure shall be reported by using the procedure code and modifier -77 or by the use of the separate five digit modifier code 09977.

-78 Return to the Operating Room for Related Procedure During the Post-Operative Period: When the surgeon indicates that another procedure was performed during the post-operative period of the initial procedure, and when this subsequent procedure is related to the first and requires the use of the operating room, it shall be reported by the procedure code and modifier -78 or by the use of the separate five digit modifier code 09978. (For repeat procedures on the same day, see -76).

-79 Unrelated Procedure or Service by the Same Health Care Provider During the Post-Operative Period: When the health care provider indicates that the performance of a procedure or service during the post-operative period was not related to the original procedure, this procedure shall be reported by using the procedure code and the modifier -79 or by the use of the separate five digit modifier code 09979. (For repeat procedures on the same day, see -76).

-80 Assistant Surgeon: Surgical assistant services shall be identified by the usual procedural code and the modifier -80 or by the use of the separate five digit modifier code 09980.

-81 Minimum Assistant Surgeon: When minimum surgical assistant services are performed, they shall be reported using the procedural code and modifier -81 or by the use of the separate five digit modifier code 09981.

-82 Assistant Surgeon: Modifier -82 shall be used when a qualified resident surgeon is not available to perform the procedure. Modifier -82 and the usual procedure code shall be used to report this service or by the use of the separate five digit modifier code 09982.

-90 Reference (outside) Laboratory: When laboratory procedures are performed by a party other than the treating or reporting practitioner, the procedure shall be identified by the usual procedure code and modifier -90 or by the use of the separate five digit modifier code 09990.

-91 Repeat Clinical Diagnostic Laboratory Test: In the course of treatment of the patient, it may be necessary to repeat the same laboratory test on the same day to obtain subsequent (multiple) test results. Under these circumstances, the laboratory test performed can be identified by its usual procedure number and the addition of the modifier '-91'. **NOTE:** This modifier may not be used when tests are rerun to confirm initial results; due to testing problems with specimens or equipment; or for any other reason when a normal, one-time, reportable result is all that is required. This modifier may not be used when other code(s) describe a series of test results (e.g., glucose tolerance tests, evocative/suppression testing). This modifier may only be used for laboratory test(s) performed more than once on the same day on the same patient.

-99 Multiple Modifiers: When two or more modifiers are necessary to delineate a service, it shall be reported using the procedure code and modifier -99 in conjunction with the other appropriate modifiers or by the use of the separate five digit modifier code 09999.

3. A modifier code shall be used to describe any unusual circumstances or services that arise in the treatment of a work related injury or illness. Modifiers which affect reimbursement are as follows:

-22 Unusual Services: If the provider charge is greater than the Maximum Allowable Fee, office notes are required and the bill must be reviewed to determine if the provider charge is appropriate.

-50 Bilateral Procedure: Pay at 150% of the Maximum Allowable Fee.

-51 Multiple Procedures: Pay at 50% of the Maximum Allowable Fee.

-52 Reduced Services: The means of reporting a reduced service without disturbing the identification of the basic service.

-62 Two Surgeons: Pay each surgeon at 75% of the Maximum Allowable Fee.

-66 Surgical Team: Pay at 100% of the Maximum Allowable Fee for the surgical procedure and 25% of the Maximum Allowable Fee for surgical procedure for each additional surgeon in the same specialty as the primary surgeon. If the surgeons are of two different specialties, each surgeon shall be paid at 100% of the Maximum Allowable Fee.

-80 Assistant Surgeon: pay at 25% of the Maximum Allowable Fee.

-81 Minimum Assistant Surgeon: Pay at 10% of the Maximum Allowable Fee.

-82 Assistant Surgeon: Pay at 25% of the Maximum Allowable Fee.

§11. FEES FOR REPORTS

1. A health care provider may not charge a fee for completing the Practitioner's Report (Form M-1) required by the Workers' Compensation Board pursuant to 39-A M.R.S.A. §208.
2. The maximum fee for copies shall be \$10 for the first page and 35 cents per page thereafter. An itemized invoice shall accompany the copies. The copying charge shall be paid by the party requesting the records.
3. A health care provider or facility shall, at the written request of the employer or the employee, furnish copies of the health care records for that particular worker's compensation injury or illness within 10 business days from receipt of the request. Supplemental reports shall be identified by using CPT Code 99080 and appropriately billed on a HCFA 1500 form.
4. The maximum fee for preparing a narrative report shall be:

Each 10 minutes: \$15.00

§12. FEES FOR DEPOSITIONS

1. The maximum fee for preparing to testify at depositions and hearings shall be:

First ½ hour: \$90.00
Each subsequent 1/4 hour: \$45.00
2. Maximum fees for attendance at depositions and hearings for the purposes of giving testimony shall be:

First hour or any fraction thereof: \$300.00
Each subsequent 1/4 hour: \$ 75.00

(Use Code 99075)

3. "Portal-to-portal" reimbursement is permitted. Fees for "portal-to-portal" travel should be limited to:
 - A. Actual, reasonable and necessary travel costs. Travel costs must be agreed upon in advance by the employer/insurer.
 - B. Actual and necessary travel time reimbursed based on levels outlined in Section 12(1) of the fee schedule (\$180.00 per hour).

These reimbursement levels apply when a deposition is more than ten miles from the practitioner's home base.

4. Health care providers shall receive a maximum of \$250.00 per canceled deposition when the cancellation occurs less than 24 hours prior to the scheduled start of the deposition. Health care providers shall receive a maximum of \$150 per canceled deposition when the cancellation takes place less than 48 but more than 24 hours prior to the scheduled start of the deposition. The party canceling the deposition is responsible for the incurred cost.

§13. ANESTHESIA GUIDELINES

1. Reimbursement to the physician applies only when anesthesia care is provided by or under the medical direction of a physician anesthesiologist.
2. To be eligible for reimbursement, the anesthesia service shall include: performance of a pre-anesthetic examination and evaluation; prescription of the anesthesia care required; personal participation in, or medical direction of, the entire plan of care; continuous physical presence of the anesthesiologist or, in the case of medical direction, of the qualified individual (one who is qualified to perform those tasks not personally performed by the anesthesiologist, such as a CRNA, resident or other individual authorized by the hospital or facility to perform such services) being medically directed; proximate presence or (in the case of medical direction) availability of the anesthesiologist for

diagnosis or treatment of emergencies and medical direction of not more than four concurrent anesthesia procedures.

3. Reimbursement will be determined by the addition of the relative unit value, time units and modifying units (if any) and multiplying this sum by a conversion factor of \$40.00 per unit. The definition of the unit components will follow.
4. The anesthesia care may include, but is not limited to general, regional, monitored anesthesia care, supplementation of local anesthesia, or other supportive services in order to afford the patient the optimal anesthesia care prescribed by the anesthesiologist during any procedure.
5. Specialized forms of monitoring (e.g., intra-arterial, central venous, and Swan-Ganz) are not included and will be reimbursed separately based on the appropriate medical or surgical fee schedule.
6. With respect to anesthesia care team payments for claims from two separate billing entities, the total payment to the anesthesia care team is the same as the payment level for an individually performing anesthesiologist or health care provider, with 50 percent of the total payment paid to each of the billing entities.
7. Definition of the Unit Components.
 - A. Relative Unit Value: The relative unit value (RUV) includes usual pre and post-operative visits, the administration of fluids and/or blood incident to the anesthesia care and interpretation of noninvasive monitoring (ECG, temperature, blood pressure, oximetry, capnography, and mass spectrometry). When multiple surgical procedures are performed during a single anesthetic administration the highest relative unit value should be used. The relative unit value will be applied to each CPT anesthesia code as outlined at the conclusion of this section.
 - B. Time Units; Anesthesia time begins when the anesthesiologist, or other qualified individual, physically starts to prepare the patient for induction of anesthesia in the operating room (or its equivalent) and ends when the anesthesiologist, or other qualified individual, is no longer in constant attendance (when the patient may be safely under post-operative supervision).

One time unit is allowed for each 15 minute time interval, or fraction thereof.

- C. Modifying Units: Physical status modifying units will be reimbursed if the patient is ranked in one of the following three categories:

<u>RANK</u>		<u>UNIT VALUE</u>
P-1 -	A normal healthy patient	0
P-2 -	A patient with mild systemic disease	0
P-3 -	A patient with severe systemic disease.	1
P-4 -	A patient with severe systemic disease that is a constant threat to life.	2
P-5 -	A moribund patient who is not expected to survive without the operation.	3

Other modifying units will be available for the following qualifying circumstances described in the CPT:

<u>CPT</u>		<u>UNIT VALUE</u>
99100 -	Anesthesia for a patient of extreme age, under one year and over seventy.	1
99116 -	Anesthesia complicated by utilization of total body hypothermia.	5
99135 -	Anesthesia complicated by utilization of controlled hypotension.	5
99140 -	Anesthesia complicated by emergency conditions (an emergency is defined as existing when delay in treatment of the patient would lead to a significant increase in the threat to life or body part).	2

8. Reimbursement for Pain Management Services: Reimbursement for pain management services (evaluation and management, medical or surgical services) will be separate from any reimbursement for anesthesia services. Reimbursement for services for pain management will be based on the appropriate evaluation and management, medical or surgical fee schedule.

§14. SURGICAL GUIDELINES

1. For surgical procedures that usually mandate a variety of attendant services, the reimbursement allowances are based on a global reimbursement concept. Global reimbursement covers the performance of the basic service and the normal range of care required before and after surgery. The normal range of post-surgical care is indicated at the right hand column under follow-up days (FUD) in Appendix III. A surgical procedure shall include all of the following:

- A. All office and hospital visits which occur after the need for surgery is determined and are related to or preparatory to the surgery.
 - B. Surgery.
 - C. Post surgical care. The number of follow-up days is indicated in the fee schedule which will determine the normal range of post surgical care for that particular procedure.
 - D. Removal of sutures.
2. An office visit shall not be billed in addition to the surgical procedure when the principal function of the office visit is the determination that the surgical procedure is needed.
3. The following four exceptions to the global reimbursement policy may warrant additional reimbursement for services provided before surgery:
- A. When a pre-operative visit is the initial visit and prolonged detention or evaluation is necessary to prepare the patient or to establish the need for a particular type of surgery.
 - B. When the pre-operative visit is a Consultation.
 - C. When pre-operative services are provided that are usually not part of the preparation for a particular surgical procedure. For example, bronchoscopy prior to chest surgery.
 - D. When a procedure would normally be performed in the office, but circumstances mandate hospitalization.
4. Additional charges and reimbursement may be warranted for additional services rendered to treat complications, exacerbation, recurrence, or other diseases and injuries. Under such circumstances, additional reimbursement may be requested. Documentation substantiating the medical necessity of the additional services rendered must be submitted with the medical bill.
5. An incidental surgery which is not part of the primary procedure performed and for which there is no diagnostic evidence relating it to the injury, shall not be paid under the Workers' Compensation system.
6. Reimbursement for the concurrent services of two or more health care providers may be warranted for:
- A. Identifiable medical services provided preoperatively, during the surgical procedure or in the post-operative period.

- B. Modifier code -80 shall identify the procedure or the procedures which may be performed by the Surgical Assistant. Reimbursement for surgical assistants is limited to health care providers who assist with surgery and must not exceed 25% of the total surgical procedure.
- C. Two Surgeons
 - (1) Under certain circumstances, the skills of two surgeons (usually with different specialties) may be required to complete a surgery. For example, a neurosurgeon and an orthopedist to complete a laminectomy and an arthrodesis.
 - (2) Reimbursement will be made according to the information on the provider's medical bill and the substantiating documentation submitted. Each provider must submit an individual claim for services.
- D. A Surgical Team. Some highly complex procedures require the concomitant services of several physicians, often of different specialties. Such complex services may also involve other highly skilled and specially trained personnel, as well as various types of sophisticated equipment. This type of complicated procedure may be carried out under the "surgical team" concept with a single, global reimbursement for the total service. The services included in the global reimbursement vary widely. The charges should be supported "By Report" and include itemization of the physician services, paramedical personnel and equipment included in the charge.

7. Multiple or Bilateral Procedures

- A. When multiple or bilateral procedures are provided at the same operative session, the first major procedure should be coded as listed on one line of the HCFA 1500 claim form and the additional procedure(s) on the following line(s) with modifier -50 or -51.
- B. The total reimbursement for all services shall be the maximum reimbursement allowance of the major procedure in addition to 50% for the secondary procedure, 25% for the tertiary procedure and 10% for each lesser procedure thereafter. The lesser procedure(s) should be coded using the appropriate modifier -50 (bilateral procedure) or -51 (multiple procedures).
- C. Except when specifically stated, initial dressings, immobilization, or casting is included in the basic allowance for the basic procedure.

§15. RADIOLOGY GUIDELINES

- 1. The maximum allowable payment for a radiology procedure includes the professional component identified by the modifier (-26) and the technical component identified by the modifier (-TC). These are found in Appendix III under Radiology.

2. Bills from one entity do not need to indicate the breakdown of the technical and professional components. These charges shall be reimbursed as indicated by the total maximum allowable payment in radiology.
3. When two bills are submitted for radiological procedure, the professional component shall be identified by using modifier code -26. The technical component, identified by modifier code -TC, covers materials and facilities/space for the diagnostic or therapeutic service.
4. Billings for radiologic services are not reimbursable without a report of findings.

§16. PHYSICAL MEDICINE GUIDELINES

1. Reimbursement of physical medicine services, procedure code 97010-97999, applies when the care is provided by, under the direct supervision of or upon written referral by the Primary Health Care Provider as defined in Section 6 and in full when the care is provided by any of the following:
 - A. A doctor of medicine.
 - B. A doctor of osteopathic medicine.
 - C. A doctor of dental surgery.
 - D. A doctor of chiropractic and chiropractic assistant.
 - E. A doctor of podiatric medicine.
 - F. A physical therapist and physical therapist assistant.
 - G. An occupational therapist and occupational therapy assistant.
 - H. A physician's assistant.
 - I. A registered nurse.
 - J. A nurse practitioner.
 - K. A massage therapist.
 - L. An acupuncturist.
 - M. A chiropractic acupuncturist.
2. The license number or certificate number of the health care provider providing physical medicine services shall be included on each bill for services rendered.
3. The amendments to Section 16 will have a retroactive effective date of April 4, 1994.

§17. RESERVED

§18. RESERVED

§19. HEALTH CARE REPORTING OF PROVIDERS PURSUANT TO TITLE 39-A M.R.S.A. §208

1. Except for medical only claims, the health care provider shall submit medical reports for the initial service/visit to the employer and employee on the Practitioner's Report (Form M-1) within five days pursuant to 39-A M.R.S.A. §208(2)(A). Failure to submit the Practitioner's Report (Form M1) within the five business day time line may result in assessment of penalties up to \$500.00 per violation.
2. The primary health care provider shall submit updated medical reports to the employer and the employee on the Practitioner's Report (Form M-1) every 30 days as long as the health care provider has evaluated/treated the patient within the previous 30 days.
3. Within five business days from the termination of treatment, a final medical report shall be submitted by the health care provider to the employer and employee on the Practitioner's Report (Form M-1).
4. If the treating health care provider refuses to release information, the health care provider shall notify the employer/insurer of the reasons for withholding this information.
5. Health care providers are permitted to reproduce the Practitioner's Report (Form M-1) for their use.

STATUTORY AUTHORITY: 39-A M.R.S.A. §§152(2) and 209

EFFECTIVE DATE: January 15, 1993 (EMERGENCY)

EFFECTIVE DATE OF PERMANENT RULE: April 17, 1993

REPEALED AND REPLACED: April 4, 1994

EFFECTIVE DATE (ELECTRONIC CONVERSION): April 28, 1996

AMENDED: January 1, 1997

(Agency asserts Section 16 as effective retroactively to April 4, 1994.)

July 1, 1997 - Changed address in §9 (4), replaced Appendix III.

May 1, 1999 - Replaced Appendix III.

July 1, 2001 – Amendments to multiple sections, replaced Appendix III.

July 1, 2002 – Amendments and replace Appendix III.

INDEX

<u>SECTION</u>	<u>PAGE</u>
DURABLE MEDICAL EQUIPMENT AND SUPPLIES	1
PERMANENT IMPAIRMENT RATINGS	1
ANESTHESIA	2
SURGERY	12
RADIOLOGY	129
PATHOLOGY	173
MEDICINE	202
OTHER	234
QUICK REFERENCE CHART	292

DURABLE MEDICAL EQUIPMENT AND SUPPLIES

The insurer/self insurer shall pay for the purchase or rental of all compensable DME, medical supplies and other devices that are ordered and approved by the attending physician, at 120% of the provider's cost.

The definition of durable medical equipment is equipment which:

- can withstand repeated use;
- is primarily and customarily used to serve a medical purpose;
- generally is not useful to a person in the absence of illness or injury; and
- is appropriate for use in the home.

All requirements of the definition must be met before an item is considered to be durable medical equipment.

- A. Durability - an item is considered durable if it can withstand repeated use; i.e., the type of item which could normally be rented. Medical supplies of an expendable nature such as incontinent pads, lamb's wool pads, catheters, ace bandages, elastic stockings, surgical face masks, irrigating kits, sheets and bags are not considered "durable" within the meaning of the definition. There are other items which, although durable in nature, may fall into other coverage categories such as braces, prosthetic devices, artificial arms, legs and eyes.
- B. Medical Equipment - Medical equipment is equipment, which is primarily and customarily used for medical purposes and is not generally useful in the absence of illness or injury.

DME is billed by facilities using the following revenue codes:

SUBCATEGORY		STANDARD ABBREVIATION
Code 290	General Classification	MED EQUIP/DURAB
Code 291	Rental	MED EQUIP/RENT
Code 292	Purchase of new DME	MED EQUIP/NEW
Code 293	Purchase of used DME	MED EQUIP/USED
Code 299	Other Equipment	MED EQUIP/OTHER

Providers shall submit a substantiating invoice for any DME, medical supply or device with a price greater than \$100.00 or upon the request of the insurer/self insurer.

PERMANENT IMPAIRMENT RATINGS

Permanent impairment shall be determined by the use of the American Medical Association's Guides to the Evaluation of Permanent Impairment, 4th edition, copyright 1993. Permanent Impairment examinations will have a maximum charge of \$450.00.

ANESTHESIA GUIDELINES

Anesthesia values are determined by the addition of the **RELATIVE UNIT VALUE**, **TIME UNITS** and **MODIFYING UNITS** (if any) and multiplying this sum by a conversion factor of \$40.00 per unit. The definition of the unit components will follow.

Definition of the Unit Components.

RELATIVE UNIT VALUE: The relative unit value (RUV) includes usual pre and postoperative visits, the administration of fluids and/or blood incident to the anesthesia care and interpretation of noninvasive monitoring (ECG, temperature, blood pressure, oximetry, capnography, and mass spectrometry). When multiple surgical procedures are performed during a single anesthetic administration the highest relative unit value should be used. The relative unit value will be applied to each CPT anesthesia code as outlined at the conclusion of this section.

TIME UNITS (TM): Anesthesia time begins when the anesthesiologist, or other qualified individual, physically starts to prepare the patient for induction of anesthesia in the operating room (or its equivalent) and ends when the anesthesiologist, or other qualified individual, is no longer in constant attendance (when the patient may be safely under postoperative supervision).

One time unit is allowed for each 15 minute time interval, or fraction thereof (7.5 minutes or more) of anesthesia time. If anesthesia time extends beyond three hours, 1.0 unit for each 10 minutes or significant fraction thereof (5 minutes or more) is allowed after the first three hours. Documentation of actual anesthesia time may be required, such as a copy of the anesthesia record in the hospital file.

MODIFYING UNITS: Physical status modifying units will be reimbursed if the patient is ranked in one of the following :

		<u>Unit Value</u>
P-1	A normal healthy patient	0
P-2	A patient with mild systemic disease	0
P-3 -	A patient with severe systemic disease.	1
P-4 -	A patient with severe systemic disease that is a constant threat to life.	2
P-5 -	A moribund patient who is not expected to survive without the operation.	3
P-6	A declared brain-dead patient whose organs are being removed for donor purposes	0

Qualifying Circumstances (more than one may be selected): Many anesthesia services are provided under particularly difficult circumstances depending on

factors such as the extraordinary condition of the patient, notable operative conditions, and unusual risk factors. This section includes a list of important qualifying circumstances that significantly impact on the character of the anesthetic service provided. These procedures would not be reported alone, but would be reported as additional procedure numbers qualifying as an anesthesia procedure or services. These modifying units may be added to the basic unit values.

<u>CPT</u>		<u>UNIT VALUE</u>
99100 -	Anesthesia for a patient of extreme age, under one year and over seventy.	1
99116 -	Anesthesia complicated by utilization of total body hypothermia.	5
99135 -	Anesthesia complicated by utilization of controlled hypotension.	5
99140 -	Anesthesia complicated by emergency conditions (an emergency is defined as existing when delay in treatment of the patient would lead to a significant increase in the threat to life or body part).	2

Reimbursement for Pain Management Services: Reimbursement for pain management services (evaluation and management, medical or surgical services) will be separate from any reimbursement for anesthesia services. Reimbursement for services for pain management will be based on the appropriate evaluation and management, medical or surgical fee schedule.

COST CONTAINMENT: Nothing in this section shall preclude an employer (or insurance carrier) from entering into payment agreements to promote the continuity of care and the reduction of health care costs. Such payment agreements, if less, will supersede the limitation amounts specified herein.

UNLISTED SERVICE OF PROCEDURE: When an unlisted service or procedure is performed, the values used should be substantiated "By Special Report." For an unlisted service or procedure, the health care provider or anesthesiologist shall establish a unit value consistent with other unit values listed in the schedule.

SUPPLEMENTAL SKILLS: When warranted by the necessity of supplemental skills, values for the services of two or more health care providers and/or anesthesiologists will be allowed. Substantiate by report.

MONITORING SERVICES: When an anesthesiologist or anesthetist is required to participate in and be responsible for monitoring the general care of the patient during a surgical procedure but does not administer anesthesia, these services are charged on the basis of the extent of the services rendered. Payment is to be made on the basis of the time units the anesthesiologist or anesthetist is in constant attendance for the sole purpose of the monitoring services; **Relative Unit Values are not to be added.**

ANESTHESIA ADMINISTERED, OTHER THAN BY AN ANESTHESIOLOGIST OR ANESTHETIST: Anesthesia fees are not payable when local infiltration, digital block, or topical anesthesia is administered by the operating surgeon or surgical assistants. Such services are included in the Unit Value for the surgical procedure.

OTHER FEES: The Unit Values for surgery, X-rays, laboratory procedures, consultation and other medical services, and office and hospital visits are listed in the following sections: Surgery, Radiology, Pathology, Medicine and Other. A consultation fee is not payable to an anesthesiologist examining the patient prior to administering anesthesia to that patient. No additional charge is to be made for routine follow-up care and observation.

CALCULATION EXAMPLES:

1: In a procedure with a Relative Value Unit of 3.0 requiring one hour of anesthesia time, the total value should be determined as follows:

Relative Value Unit	=3.0 units
60 min divided by 15 min	=4.0 units
Total value	=7.0 units

2: In a procedure with a Relative Value Unit of 10.0 requiring four hours and thirty minutes of anesthesia time, the total value should be determined as follows:

Relative Value Unit	=10.0 units
First three hours	=12.0 units
Subsequent 90 minutes	=09.0 units
Total value	=31.0 units

In both cases, the Maximum Allowable Fee is determined by multiplying the total value units by the Conversion Factor. In billing, list the Relative Value Unit (showing the procedure code and all modifiers) and Time Units separately, as in the following:

Procedure Code + Modifier(s) = Relative Unit Value

Anesthesia Time	=Time Units
Total Value	=Total Units

Total units X Conversion Factor = Maximum Allowable Fee

CONVERSION FACTOR = \$40.00

SURGERY GUIDELINES

1. For surgical procedures that usually mandate a variety of attendant services, the reimbursement allowances are based on a global reimbursement concept. Global reimbursement covers the performance of the basic service and the normal range of care required before and after surgery. The normal range of post-surgical care is indicated at the right hand column under follow-up days (FUD) in Appendix III. A surgical procedure shall include all of the following:
 - A. All office and hospital visits which occur after the need for surgery is determined and are related to or preparatory to the surgery.
 - B. Surgery.
 - C. Post surgical care. The number of follow-up days is indicated in the fee schedule which will determine the normal range of post surgical care for that particular procedure.
 - D. Removal of sutures.
2. An office visit shall not be billed in addition to the surgical procedure when the principal function of the office visit is the determination that the surgical procedure is needed.
3. The following four exceptions to the global reimbursement policy may warrant additional reimbursement for services provided before surgery:
 - A. When a pre-operative visit is the initial visit and prolonged detention or evaluation is necessary to prepare the patient or to establish the need for a particular type of surgery.
 - B. When the pre-operative visit is a Consultation.
 - C. When pre-operative services are provided that are usually not part of the preparation for a particular surgical procedure. For example, bronchoscopy prior to chest surgery.
 - D. When a procedure would normally be performed in the office, but circumstances mandate hospitalization.
4. Additional charges and reimbursement may be warranted for additional services rendered to treat complications, exacerbation, recurrence, or

- other diseases and injuries. Under such circumstances, additional reimbursement may be requested. Documentation substantiating the medical necessity of the additional services rendered must be submitted with the medical bill.
5. An incidental surgery which is not part of the primary procedure performed and for which there is no diagnostic evidence relating it to the injury, shall not be paid under the Workers' Compensation system.
 6. Reimbursement for the concurrent services of two or more health care providers may be warranted for:
 - A. Identifiable medical services provided preoperatively, during the surgical procedure or in the post-operative period.
 - B. Modifier code -80 shall identify the procedure or the procedures which may be performed by the Surgical Assistant. Reimbursement for surgical assistants is limited to health care providers who assist with surgery and must not exceed 25% of the total surgical procedure.
 - C. Two Surgeons
 - (1) Under certain circumstances, the skills of two surgeons (usually with different specialties) may be required to complete a surgery. For example, a neurosurgeon and an orthopedist to complete a laminectomy and an arthrodesis.
 - (2) Reimbursement will be made according to the information on the provider's medical bill and the substantiating documentation submitted. Each provider must submit an individual claim for services.
 - D. A Surgical Team. Some highly complex procedures require the concomitant services of several physicians, often of different specialties. Such complex services may also involve other highly skilled and specially trained personnel, as well as various types of sophisticated equipment. This type of complicated procedure may be carried out under the "surgical team" concept with a single, global reimbursement for the total service. The services included in the global reimbursement vary widely. The charges should be supported "By Report" and include itemization of the physician services, paramedical personnel and equipment included in the charge.
 7. Multiple or Bilateral Procedures

- A. When multiple or bilateral procedures are provided at the same operative session, the first major procedure should be coded as listed on one line of the HCFA 1500 claim form and the additional procedure(s) on the following line(s) with modifier -50 or -51.
 - B. The total reimbursement for all services shall be the maximum reimbursement allowance of the major procedure in addition to 50% for the secondary procedure, 25% for the tertiary procedure and 10% for each lesser procedure thereafter. The lesser procedure(s) should be coded using the appropriate modifier -50 (bilateral procedure) or -51 (multiple procedures).
 - C. Except when specifically stated, initial dressings, immobilization, or casting is included in the basic allowance for the basic procedure.
8. Follow-up care for diagnostic procedures: Follow-up care for diagnostic procedures includes only that care that was related to recovery from the diagnostic procedure itself. Care of the condition for which the diagnostic procedure was performed or of other concomitant conditions is not included and may be billed separately.
9. Reduced Procedure Codes: Certain codes, by the nature of their description and the unit value assigned have already been reduced, as they are not to be billed as primary procedures. Those codes are listed below. The services for these codes are to be reimbursed at the listed unit value when billed with other procedures.

10. Follow-up or Aftercare: Follow-up care for therapeutic surgical procedures includes all normal postoperative care, that care which is usually a part of the surgical service. Complications, exacerbations, recurrence of the condition, or the presence of other diseases or injuries requiring additional services concurrent with the procedure may warrant additional charges. If separate charges are made, explain by report with an adequate description.
11. Separate or Independent procedures: Some of the listed procedures are commonly carried out as an integral part of a total service and do not warrant a separate identification. When such a procedure is performed independently of other services to which the procedure is not immediately related the Unit Value for the "separate procedure" listing, where identified as such in the Fee Schedule, is applicable; i.e., when a procedure which is ordinarily a component of a larger procedure is performed alone for a specific purpose, the component procedure may be considered to be a separate procedure.
12. Primary, Secondary, or Delayed procedures: A Primary procedure is one that is attempted or performed for the first time, irrespective of the relationship to the date of injury or the onset of the condition being treated. Secondary refers to a procedure performed when a condition has been previously treated. Delayed procedures have the same Maximum Allowable Fee as the primary procedure.

13. Unlisted service or procedure: When an unlisted service or procedure is performed (no CPT code is listed in the Medical Fee Schedule but is a valid CPT code), the procedure should be identified and the amount charged substantiated "by report".

RADIOLOGY GUIDELINES

1. The maximum allowable payment for a radiology procedure includes the professional component identified by the modifier (-26) and the technical component identified by the modifier (-27). These are found in Appendix III under Radiology.
2. Bills from one entity do not need to indicate the breakdown of the technical and professional components. These charges shall be reimbursed as indicated by the total maximum allowable payment in radiology.
3. When two bills are submitted for radiological procedure, the professional component (which includes the examination of the patient when indicated, performance or supervision of the procedure, interpretation and written report of the examination including procedure results and consultation with the referring health care provider), shall be identified by using modifier code -26.
4. The technical component, identified by modifier code -27, covers materials and facilities/space for the diagnostic or therapeutic service.
5. Billings for radiologic services are not reimbursable without a report of findings.
6. Duplication of X-Rays: Every attempt should be made to minimize the number of X-Rays taken. The attending health care provider or any other person or institution having possession of X-rays, which pertain to the patient and are deemed to be needed for diagnostic or treatment purposes, should make those X-rays available upon request.

PHYSICAL MEDICINE GUIDELINES

1. Reimbursement of physical medicine services, procedure code 97010-97999, applies when the care is provided by, under the direct supervision of or upon written referral by the Primary Health Care Provider as defined in Section 6 and in full when the care is provided by any of the following:
 - A. A doctor of medicine.
 - B. A doctor of osteopathic medicine.
 - C. A doctor of dental surgery.
 - D. A doctor of chiropractic and chiropractic assistant.
 - E. A doctor of podiatric medicine.
 - F. A physical therapist and physical therapist assistant.
 - G. An occupational therapist and occupational therapy assistant.
 - H. A physician's assistant.
 - I. A registered nurse.
 - J. A nurse practitioner.
 - N. A massage therapist.
 - O. An acupuncturist.
 - P. A chiropractic acupuncturist.
2. The license number or certificate number of the health care provider providing physical medicine services shall be included on each bill for services rendered.
1. **Separate Procedures:** Some listed procedures are commonly carried out as an integral part of a total service and do not warrant a separate identification. When such a procedure is performed independently of other services to which the procedure is not immediately related, the Unit Value for the "separate procedure" listing, where identified as such in the Medical Fee Schedule is applicable.
2. **Concurrent Care:** When the condition of the patient requires the skills of two or more health care providers to treat different conditions, payment is due each health care provider who plays an active role in the treatment program. The services rendered by each provider shall be distinct, identifiable and adequately documented in the records and reports.
3. **Alternating Health Care Providers:** When health care providers of similar skills alternate in the care of a patient (e.g., partners of the same facility, covering providers on weekends or vacation periods), each health care provider shall charge individually for the services personally rendered and such charges shall be in accordance with the Medical Fee Schedule.

4. Failure of a Patient to Keep a Scheduled Appointment: In the event a patient fails to keep a scheduled appointment, the health care provider is not to bill for any services that would have been provided by said appointment nor shall there be any reimbursement for such scheduled services. This rule does not apply with regard to a deposition, testimony or Section 312 IME.
